TRANSMITTAL LETTER

ANNUAL FINANCIAL STATEMENTS

(Date)

Office of Legislative Auditor Attention: Ms. Suzanne Elliott 1600 North Third P.O. Box 94397 Baton Rouge, LA 70804-9397

Dear Ms. Elliott:

In accordance with Louisiana Revised Statute 24:514, enclosed are the annual financial statements for the (Name of Police Jury), Louisiana, as of and for the fiscal year ended ______, 20___. This report includes all funds under the control and oversight of the parish (list any exceptions).

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States (list any exceptions).

Sincerely,
Secretary Treasurer

Enclosure

Management Discussion and Analysis		
As of and for the Year Ended	. 20	

[The basic financial statements should be preceded by management's discussion and analysis (MD&A), which is required supplementary information (RSI). MD&A should provide an objective and easily readable analysis of the government's financial activities based on currently known facts, decisions, or conditions. (GASB Statement 34, ¶8)

MD&A should discuss the current-year results in comparison with the prior year, with emphasis on the current year. This fact-based analysis should discuss the positive and negative aspects of the comparison with the prior year. The use of charts, graphs, and tables is encouraged to enhance the understandability of the information. (GASB Statement 34, ¶9)

MD&A requirements established by GASB Statement 34, ¶11 (a) through (h) are discussed in general rather than specific terms to encourage financial managers to effectively report only the most relevant information and to avoid "boiler-plate" discussion. The information presented should be confined to the topics discussed. Governments can provide additional details about the required topics in (a) through (h). Information that does not relate to the required topics should not be included in MD&A, but may be provided elsewhere, such as in the letter of transmittal or in other forms of supplementary information. (GASB Statement 37, ¶4)

In the first period that this Statement is applied, governments are not required to restate prior periods for purposes of providing the comparative data for MD&A as required in paragraph 11. However, governments are encouraged to provide comparative analyses of key elements of total governmental funds and total enterprise funds in MD&A for that period. Also in the first year of implementation, MD&A should include a statement that, in future years, when prior-year information is available, a comparative analysis of government-wide data will be presented. (GASB Statement 34, ¶145)]

STATEMENT F

(NAME OF POLICE JURY), LOUISIANA

Reconciliation of The Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities

For the Year Ended, 20	
Amounts reported for governmental activities in the Statement of Activities are different because	e:
Net Change in Fund Balances, Total Governmental Funds, Statement E	\$
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	
The net effect of various miscellaneous transactions involving capital assets is to increase net assets.	
Revenue in the statement of activities that do not provide current resources are not reported as revenues in the funds.	-
The issuance of long-term debt (bonds, leases, etc.) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	
The net revenue of certain activities of internal service funds is reported with governmental activities.

INTRODUCTION

The (Name of Police Jury) is the parish governing authority governed by an elected board referred to as the "police jury." (similar to county boards in other states).

- 1. How the police jury was created, including making reference to the specific Louisiana Revised Statutes, parish charter, etc., if applicable.
- 2. The purpose of the police jury.
- 3. Number of board members, how elected, and whether they are compensated.
- 4. Geographic location and size of the police jury.
- 5. The population of the parish or the number of people served.
- 6. Number of employees.
- 7. Quantitative information about the jury's operations (number of utility customers, approximate number of miles of roads maintained, etc.).]

GASB Statement No. 14, *The Reporting Entity*, established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement, the jury is considered a primary government, since it is a special purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. As used in GASB Statement No. 14, fiscally independent means that the police jury may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue bonded debt. The police jury has oversight of other component units that are, either, blended into the police jury's basic financial statements or discretely presented in a separate column in the government-wide financial statements.

Blended Component Units (Include a brief description of any blended component units; the description should include information on how users may obtain copies of the component unit separately issued financial statements))

Discretely Presented Component Units (Include a brief description of any discretely presented component units; the description should include information on how users may obtain copies of the component unit separately issued financial statements)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and

intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meetings the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even through the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessment receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The police jury reports the following major governmental funds:

The General Fund is the police jury's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund

(Describe other major governmental funds.)

The police jury reports the following major proprietary funds:

(Describe other major proprietary funds.)

Additionally, the government reports the following fund types:

Internal service funds account for services provided to other departments and agencies of the police jury, or to other governments, on a cost reimbursement basis.

The private-purpose trust funds (Describe any private-purpose trust funds.)

The pension trust fund (Describe any pension trust funds.)

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the governments enterprise operations. Elimination of thse charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. (Describe the principal operating revenues of the proprietary funds.) Operating expenses for enterprise funds and internal service funds include th cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the police jury's policy to use restricted resources first, then unrestricted resources as they are needed.

C. Deposits and Investments

The police jury's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. State law and the police jury's investment policy allow the police jury to invest in collateralized certificates of deposits, government back securities commercial paper, the state sponsored investment pool, and mutual funds consisting solely of government backed securities.

Investments for the police jury, as well as for its component units, are reported at fair value. The state investment pool (LAMP) operates in accordance with state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

D. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year re referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources

All trade and property tax receivables are show net of an allowance for uncollectives. (Describe the police jury's policy in establishing uncollectible allowances.)

Property taxes are levied on a calendar year basis and become due on January 1 of each year. The following is a summary of authorized and levied ad valorem taxes:

	Authorized <u>Millage</u>	Levied Millage	Expiration Date
Taxes due for:			
Principal and interest			

The following are the principal taxpayers and related property tax revenue for the parish: [include those taxpayers whose percentage of total assessed valuation is 5% and greater]

Taxpayer	Type of Business	Assessed Valuation \$	% of Total Assessed Valuation % % % % % %	Ad Valorem Tax Revenue for Municipality \$
Total		\$	% % %	\$

Sales Taxes (Detail any sales taxes received by the police jury, the rate, purpose, expiration date, et cetera.)

E. Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out method. Inventories of the governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements

F. Restricted Assets

(Describe the restrictions placed on any assets.)

G. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost (the extent to which fixed asset costs have been estimated and the methods of estimation should be disclosed) if historical cost is not available (or describe other method of valuation). Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The police jury maintains a threshold level of \$_____ or more for capitalizing capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as	s projects are constructed. Int	erest incurred during the
construction phase of capital assets of business-type activities is inc	cluded as part of the capitalize	d value of the assets constructed.
The total interest expense included during the current fiscal year wa	s \$ Of this amount, \$_	was included as part of the cost
of capital assets under construction in connection with	construction projects.	

All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

Description	Estimated Lives
Roads, bridges, and infrastructure	years
Land improvements	years
Buildings and building improvements	years
Furniture and fixtures	years
Vehicles	years
Equipment	- years

H. Compensated Absences

The police jury has the following policy relating to vacation and sick leave:

(Describe the police jury leave policies.)

The police jury's recognition and measurement criteria for compensated absences follows:

[GASB Statement No. 16 provides that vacation leave and other compensated absences with similar characteristics should be accrued as a liability as the benefits are earned by the employees if both of the following conditions are met:

- 1. The employees' rights to receive compensation are attributable to services already rendered.
- 2. It is probable that the employer will compensate the employees for the benefits through paid time off or some other means, such as cash payments at termination or retirement.

GASB Statement No. 16 provides that a liability for sick leave should be accrued using one of the following termination approaches:

- 1. An accrual for earned sick leave should be made only to the extent it is probable that the benefits will result in termination payments, rather than be taken as absences due to illness or other contingencies, such as medical appointments and funerals.
- 2. Alternatively, a governmental entity should estimate its accrued sick leave liability based on the sick leave accumulated at the balance sheet date by those employees who currently are eligible to receive termination payments as well as other employees who are expected to become eligible in the future to receive such payments.

The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported.

I. Long-Term Obligations

In the government-wide financial statements, and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bon premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

J. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

K. Comparative Data/Reclassifications

Comparative total data for the prior year have been presented only for individual enterprise funds in the fund financial statements in order to provide an understanding of the changes in the financial position and operations of these funds. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

L. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events within the control of the police jury, which are either unusual in nature or infrequent in occurrence.

M. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

(Name of Police jury), Louisiana	
Notes to the Financial Statements	(Continued)

14. RETIREMENT SYSTEMS

(Name of Police jury), Louisiana

Plan Description. Substantially all employees of the financial reporting entity are members of one of the following cost-sharing, multiple-employer defined benefit pension plans, each administered by separate board of trustees:

Entity	Retirement System
Policy Jury	Parochial Employees' Retirement System (Parochial Plan A and Plan B)
Sheriff	Louisiana Sheriffs Retirement System (Sheriffs)
Assessor	Louisiana Assessors' Retirement System (Assessors)
Clerk of Court	Louisiana Clerks of Court Retirement and Relief Fund (Clerks)
District Attorney	Louisiana District Attorneys Retirement System (DAs)
Fire Protection District	Louisiana Firefighters' Retirement System (Firefighters)

Employee Eligibility Requirements:

Parochial Plan A and Plan B

All employees working at least 28 hours per week and all elected parish officials are eligible to participate.

Sheriffs

All sheriffs and all deputies who are found to be physically fit, who earn at least \$400 per month, and who were between the ages of 18 and 50 at the time of original employment are required to participate.

Assessors

All full-time employees who are under the age of 60 at the time of original employment and are not drawing retirement benefits from any other public retirement system in Louisiana are required to participate.

Clerks

All employees who are under the age of 60 at the time of original employment and are not drawing retirement benefits from any other public retirement system in Louisiana are required to participate.

District Attorneys

All district attorneys and assistant district attorneys who earn, as a minimum, the amount paid by the state for assistant district attorneys and are under the age of 60 at the time of original employment are required to participate.

Firefighters

All full-time firefighters employed by a municipality, parish, or fire protection district that did not enact an ordinance before January 1, 1980, exempting itself from participation are required to participate.

Retirement Benefits:

				Percent of
	Minimum	Years of		Final Average
<u>Plan</u>	Age	Service	Factor	Salary
Parochial Plan A	60	10	3%	30%
	55	25	3%	75%
	Any age	30	3%	90%

	50	30	3%	90%
Clerks	55	12	3%	33%
DAs (before 7/1/90)	Any age	23	3%	69°%*
	55	18	3%	54°%**
	60	10	3%	30°%***
DAs (after 7/1/90)	Any age	30	3.5%	100%
,	55	24	3.5%	84%
	60	10	3.5%	35%
Firefighters	55	12	3.33%	40%
J	50	20	3.33%	67%

^{3%} benefit reduction is applied for each year below age 55, unless member has 30 or more years of service."

Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Each of the pension plans also provides death and disability benefits. Benefits are established or amended by state statute.

Each retirement system issues an annual publicly available financial report that includes financial statements and required supplementary information. These reports may be obtained by writing or calling the particular retirement system. The following is the mailing address and phone number for each retirement system:

- Parochial Employees' Retirement System, Post Office Box 14619, Baton Rouge, Louisiana 70898-4619, (504) 928-1361.
- Louisiana Sheriffs Retirement System, Post Office Box 3163, Monroe, Louisiana 71220, (318) 362-3191
- Louisiana Assessors' Retirement System, Post Office Box 1786, Shreveport, Louisiana 71166-1786, (318) 425-4446.
- Louisiana Clerks of Court Retirement and Relief Fund, 11745 Bricksome Avenue, Baton Rouge, Louisiana 70816, (504) 293-1162.
- Louisiana District Attorneys Retirement System, 2109 Decatur Street, New Orleans, Louisiana 70116-2091, (504) 947-5551.
- Louisiana Firefighters' Retirement System, Post Office Box 94095, Baton Rouge, Louisiana 70804, (504) 925-4060.

Funding Policy. State statute requires covered employees to contribute a percentage of their salaries to the pension plans. As provided by R.S. 11:103, the employer contributions are determined by an actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The required contribution rates by ret rement system follows:

^{3%} benefit reduction for each year below age 60.**

^{3%} benefit reduction for each year retiring below the age of 62.***

Parochial Employees' Retirement System. Under Plan A, members are required by state statute to contribute 9.5% of their annual covered salary and the employer is required to contribute at an actuarially determined rate. The current rate is 5.5% of annual covered payroll. [Under Plan B, members are required by state statute to contribute 2.0% of their annual covered salary in excess of \$1,200 and the employer is required to contribute at an actuarially determined rate. The current rate is 2.50% of annual covered payroll.] Contributions to the retirement system also include one-fourth of 1% (except Orleans and East Baton Rouge parishes) of the taxes shown to be collectible by the tax rolls of each parish. These tax dollars are divided between Plan A and Plan B based proportionately on the salaries of the active members of each plan. The employer's contributions to the retirement system under Plan A for the years ending December 31,, and, were \$, \$, and \$, respectively, equal to the required contributions for each year. The employer's contributions to the retirement system under Plan B for the years ending December 31,, and, were \$, and \$, respectively, equal to the required contributions for each year. (If the required contributions and the actual amount contributed do not equal, disclose the required contribution in dollars and the percentage of that amount contributed for the current year and each of the two preceding years.)
Louisiana Sheriffs Retirement System. Plan members are required by state statute to contribute 8.70% of their annual covered salary and the Parish Sheriff is required to contribute at an actuarially determined rate. The current rate is 5.0% of annual covered payroll. The Parish Sheriff's contributions to the retirement system for the years ending June 30,, and, were \$, \$, and \$, respectively, equal to the required contributions for each year. (If the required contributions and the actual amount contributed do not equal, disclose the required contribution in dollars and the percentage of that amount contributed for the current year and each of the two preceding years.)
Louisiana Assessors' Retirement System. Plan members are required by state statute to contribute 7.0% of their annual covered salary and the Parish Assessor is required to contribute at an actuarially determined rate. The current rate is 5.75% of annual covered payroll. Contributions to the retirement system also include one-fourth of 1% (1% for Orleans Parish) of the taxes shown to be collectible by the tax rolls of each parish, plus revenue sharing funds appropriated by the legislature. The Parish Assessor's contributions to the retirement system for the years ending December 31,, and, were \$, and \$, respectively, equal to the required contributions for each year. (If the required contributions and the actual amount contributed do not equal, disclose the required contribution in dollars and the percentage of that amount contributed for the current year and each of the two preceding years.)
Louisiana Clerks of Court Retirement and Relief Fund. Plan members are required by state statute to contribute 8.25% of their annual covered salary and the Parish Clerk of Court is required to contribute at an actuarially determined rate. The current rate is 10.0% of annual covered payroll. The Parish Clerk of Court's contributions to the retirement system for the years ending June 30,, and, were \$, \$, and \$, respectively, equal to the required contributions for each year. (If the required contributions and the actual amount contributed do not equal, disclose the required contribution in dollars and the percentage of that amount contributed for the current year and each of the two preceding years.)
Louisiana District Attorneys Retirement System. Plan members are required by state statute to contribute 7.0% of their annual covered salary and the district attorney is required to contribute at an actuarially determined rate. The current rate is 1.25% of annual covered payroll. Contributions to the retirement system also include .2% of the ad valorem taxes collected throughout the state and revenue sharing funds as appropriated by the legislature. The district attorney's contributions to the retirement system for the years ending December 31,, and, were \$, \$, and \$, respectively, equal to the required contributions for each year. (If the required contributions and the actual amount contributed do not equal, disclose the required contribution in dollars and the percentage of that amount contributed for the current year and each of the two preceding years.)
Louisiana Firefighters' Retirement System. Plan members are required by state statute to contribute 8.0% of their annual covered salary and Fire Protection District No of Parish is required to contribute at an actuarially determined rate. The current rate is 9.0% of annual covered payroll. Fire Protection District No of Parish's contributions to the retirement system for the years ending December 31,, and, were \$, \$, and \$, respectively, equal to the required contributions for each year. (If the required contributions and the actual amount contributed do not equal, disclose the required contribution in dollars and the percentage of that amount contributed for the current year and each of the two preceding years.)
(Disclosure should comply with GASB Statement No. 27.)

15. OTHER POSTEMPLOYMENT BENEFITS

[GASB Statement No. 12 requires, as a minimum, the following disclosures if the parish provides other postemployment benefits (OPEB). The disclosures may be made separately for one or more types of benefits or in the aggregate for all OPEB provided.

(Name of Police jury), Louisiana Notes to the Financial Statements (Continued)

- A. A description of the OPEB provided, employee groups covered, eligibility requirements, and the employer and participant obligations to contribute, quantified in some manner (for example, the approximate percentage of the total obligation to contribute that is borne by the employer and the participants, respectively, or the dollar or percentage contribution rates).
- B. A description of the statutory, contractual, or other authority under which OPEB provisions and obligations to contribute are established.
- C. A description of the accounting and financing or funding policies followed. For example, a statement that the employer's contributions are financed on a pay-as-you-go basis or are advance-funded on an actuarially determined basis. Elf OPEB are advance-funded on an actuarially determined basis, the employer should also disclose the actuarial cost method and significant actuarial assumptions (including the interest rate and, if applicable, the projected salary increase assumption and the health inflation assumption) used to determine funding requirements, and the method used to value plan assets.
- D. The following expenditure/expense information, depending on how OPEB are financed:
 - (1) If OPEB are financed on a pay-as-you-go basis, the amount of OPEB expenditures/expenses recognized during the period by the employer (net of participant contributions); also, disclose the number of participants currently eligible to receive benefits. If expenditures/expenses for OPEB cannot readily be separated from expenditures/expenses for similar types of benefits provided to active employees and their dependents, employers should use reasonable methods to approximate OPEB expenditures/expenses. If a reasonable approximation cannot be made, employers should state that OPEB expenditures/expenses cannot be reasonably estimated.
- (2) If OPEB are advance-funded on an actuarially determined basis, the number of active plan participants, the employer's actuarially required and actual contributions for the period (net of contributions), the amount of net assets available for OPEB, and the actuarial accrued liability and unfunded actuarial accrued liability for OPEB according to the actuarial cost method in use.
- E. A description (and the dollar effect, if measurable) of any significant matters that affect the comparability of the disclosures with those for the previous period (for example, a change in benefit provisions).
- F. Any additional information that the employer believes will help users assess the nature and magnitude of the cost of the employer's commitment to provide OPEB.]

16. CHANGES IN AGENCY FUND DEPOSITS DUE OTHERS

A summary of changes in agency fund deposits due others follows:

	Balance at Beginning of Year	Additions	Reductions	at End of Year
Agency funds:	\$	\$	S	. \$
Total	\$	\$	\$	\$

17. RESERVED AND DESIGNATED RETAINED EARNINGS/FUND BALANCES

(Detail any reserves or designations appearing on the Statement of Net Assets or Balance Sheet.)

18. SEGMENT INFORMATION

(A reporting government should disclose any segment information for any of its, multiple, enterprise funds.)

19. FEDERAL COMPLIANCE CONTINGENCIES

(Include all federal contingencies with an explanation of questioned or disallowed costs.)

20. SOLID WASTE LANDFILL COSTS

(Name of Police jury), Louisiana Notes to the Financial Statements (Continued)

GASB Statement No. 18 applies to cities that are required by federal, state, or local laws or regulations to incur parish solid waste landfill closure and postclosure care costs. The statement requires that the following be disclosed in the notes to the financial statements:

- 1. The nature and source of landfill closure and postclosure care requirements (federal, state, or local laws or regulations).
- 2. That recognition of a liability for closure and postclosure care costs is based on landfill capacity used to date.
- 3. The reported liability for closure and postclosure care at the balance sheet date (if not apparent from the financial statements) and the estimated total current cost of closure and postclosure care remaining to be recognized.
- 4. The percentage of landfill capacity used to date and estimated remaining landfill life in years.
- 5. How closure and postclosure care financial assurance requirements, if any, are being met. Also, any assets restricted for payment of closure and postclosure care costs (if not apparent from the financial statements)
- The nature of the estimates and the potential for changes due to inflation or deflation, technology, or applicable laws or regulations.

State and federal laws and regulations require the (Name of Police Jury) to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. In addition to operating expenses relating to current activities of the landfill, an expense provision and related liability are being recognized based on

The following is an example disclosure:

rec est bas and (19 wo	efuture closure and postclosure care costs that will be incurred near or after the date the landfill no longer accepts waste. The cognition of these landfill closure and postclosure care costs is based on the amount of the landfill used during the year. The cimated liability for landfill closure and postclosure care costs has a balance of \$
fina of \$ par Car ren mig	(Name of Police Jury) is required by state and federal laws and regulations to make annual contributions to ance closure and postclosure care. The police jury is in compliance with these requirements, and at, 19, investments [\$
21.	RELATED PARTY TRANSACTIONS
(FA am	ASB 57 requires the disclosure of the description of the relationship, the transactions, the dollar amount of the transactions, and any lounts due to or from that result from related party transactions. List all related party transactions.)
22.	RISK MANAGEMENT
[Th	e following information should be disclosed, if applicable:
1.	A description of the risks of loss to which the is exposed and the way(s) in which those risks of loss are handled (for example, purchase of commercial insurance, participation in a public entity risk pool, risk retention).
2.	A description of significant reductions in insurance coverage from coverage in the prior year by major categories of risk. Also indicate whether the amount of settlements exceeded insurance coverage for each of the past three fiscal years.
3.	If the participates in a risk pool, a description of the nature of the participation, including the rights and the responsibilities of both the entity and the pool.

(Name of Police jury),	Louisiana	
Notes to the Financial	Statements	(Continued)

4	If the	retains the	risk of los	c
4.	n uie	retains the	1124 01 102	ः

- The basis for estimating the liabilities for unpaid claims, including the effects of specific, incremental claim adjustment
 expenditures/expenses, salvage, and subrogation, and whether other allocated or unallocated claim adjustment
 expenditures/expenses are included.
- The carrying amount of liabilities for unpaid claims that are presented at present value in the financial statements and the range of discount rates used to discount those liabilities.
- The aggregate outstanding amount of claims liabilities for which annuity contracts have been purchased in the claimants' names and for which the related liabilities have been removed from the balance sheet. (Annuity contracts used to settle claims for which the claimant has signed an agreement releasing the entity from further obligation and for which the likelihood that the pool will be required to make future payments on those claims is remote should not be included in this disclosure.)
- A reconciliation of changes in the aggregate liabilities for claims for the current fiscal year and the prior fiscal year, in the following tabular format:
- Amount of claims liabilities at the beginning of each fiscal year.
- Incurred claims, representing the total of a provision for events of the current fiscal year and any change (increase or decrease) in the provision for events of prior fiscal years.
- Payments of claims attributable to events of both the current fiscal year and prior fiscal years.
- Other. (Provide an explanation of each material item.)
- Amount of claims liabilities at the end of each fiscal year.]

For additional information and example note disclosures, refer to GASB Codification Section C50.)

			on of such ma						•	

24. ON-BEHALF PAYMENTS FOR FRINGE BENEFITS AND SALARIES

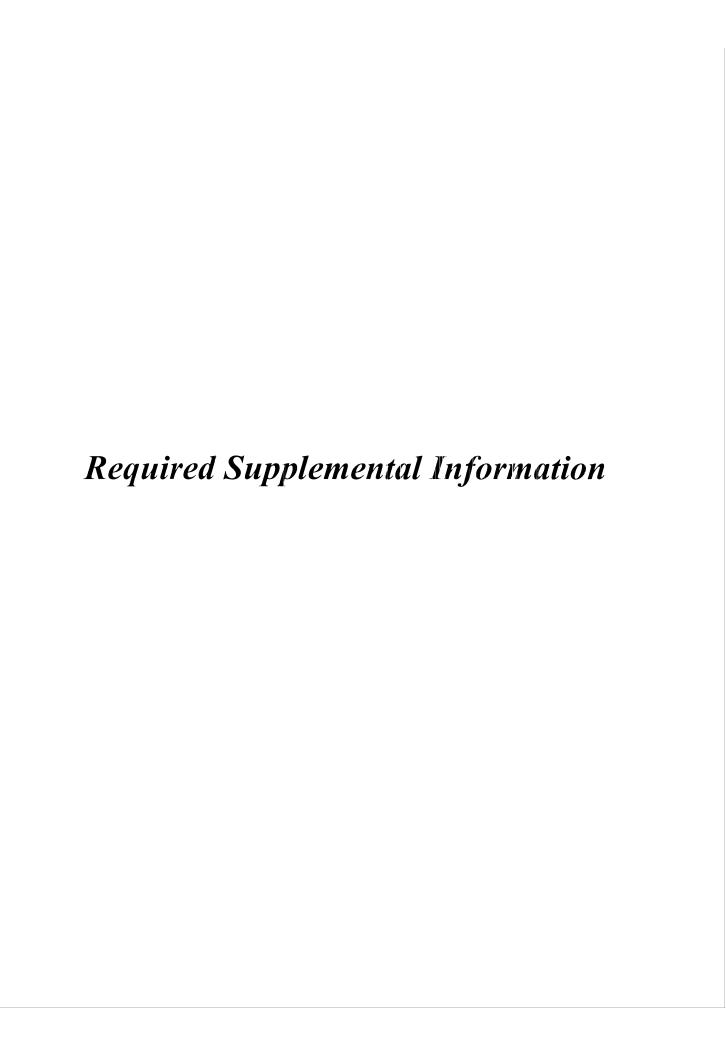

(Note to the preparer of the financial statements: GASB Statement 24 requires that on-behalf payments for fringe benefits and salaries be recognized as revenue and expenditures or expenses and that the notes to the financial statements disclose the amounts recognized. On-behalf payments include pension plan contributions, employee health and life insurance premiums, and salary supplements or stipends. You should refer to GASB Statement 24 for guidance relating to the recognition and measurement of on-behalf payments for fringe benefits and salaries.)

25. JOINTLY GOVERNED ORGANIZATIONS

(A reporting government should disclose jointly operated entities. In addition, the police jury should disclose any material cooperative endeavor agreements.

26. SUBSEQUENT EVENTS

(A reporting government should disclose any material event affecting it that occurs between the close of the fiscal period and issuance of the financial statements.)

Section III -	- Management Letter:			

Note: This schedule should be completed at the completion of the audit and include all current audit findings and management letter comments. This includes internal control findings, compliance findings with federal and state laws and regulations, and questioned costs relative to federal awards.

If management does not agree with the audit findings or believes corrective action is not required, then the corrective action plan should include an explanation and specific reasons.

- 1 Reference numbers the auditor assigns to the audit finding.
- 2 Management should clearly state the actions taken to date or their intended actions. The actions should be listed in detail. For internal control and compliance findings material to federal awards, management should state whether the federal grantor or pass-through entity has been contacted concerning resolution of the matter.
- 3 Name(s) of contact person(s) responsible for corrective action.

Section III - Management I	Letter:		

Note: This summary schedule of prior audit findings should include all prior audit findings and management letter comments. This includes internal control findings, compliance findings with federal and state laws and regulations, and questioned costs relative to federal awards. If no findings have been reported under a specific section, the schedule should so state.

In addition, this summary schedule should include audit findings reported in the prior audit's summary schedule of prior audit findings, except those audit findings listed as corrected or no longer valid or not warranting further action.

- 1 Reference numbers the auditor assigns to the audit finding.
- When audit findings are not corrected or are only partially corrected, the planned corrective action as well as any partial corrective action taken should be described.
- 3 Additional explanation is required when:
 - Corrective action taken is significantly different from corrective action previously reported.
 - Management believes the audit findings are no longer valid or do not warrant further action.
- 4 If a management decision has been issued by a federal or pass-through agency, this should be included.
